

IMPORTANT INFORMATION

This bag contains important information that should be kept for future reference. Anyone involved in the setting up and operating of this product should have access to these instructions.

The “Airquee UK Land Inflatable Operation Manual” should be read, along with any additional operation instructions (as indicated on the manual cover).

Serious injury can occur if our products are not handled or set up correctly.

You and your staff should also be trained in manual handling.

Before this product is used you should carry out a full risk assessment.

Please ensure you have the correct insurances in place before using this product.

If you have any questions about the setup, use or safe handling of this product, contact Airquee before continuing.
