

About Gibbons Fans:

Gibbons Fan Products Ltd are the international leaders in Inflatable blower technology.

At Gibbons Fans we offer the world's largest premium range of fans and blowers for the bouncy castle, inflatable and advertising industries.

Our industry standard 1.5hp moonwalk blower, used on approximately 80% of all commercial inflatables, is certified by CSA as being fully compliant to UL 507, ninth edition and CSA C22.2 No 113-10.

This certification ensures that our products are safety assured and manufactured to the highest possible quality standards.

Gibbons Fans: A Name you can Trust:

With over 25 years experience in designing and supplying fans and blowers for the inflatable industry, Gibbons Fans offer products of proven pedigree and highest quality. Our excellent service standards and reliability has resulted in Gibbons Fans being recognised internationally as the most end user requested inflatable blower brand.

High Quality, High Performance, Industry Leading Service:

Gibbons Fans offer industry leading performance, design and quality. This is backed up by first class after sales service and support. Our commercial staff and support staff are always on hand to offer advice and support to all customers and end users.

British Design, British Engineering:

Our Engineering team have between them over 100 years experience in engineering and industrial design. At Gibbons Fans we use the latest 3D modelling and design verification tools to ensure we build quality into our products from inception to market launch.

Child and Operator Safety:

At Gibbons Fans we take safety very seriously. Our products are CSA certified to CSA C22.2 No 113-10 and/or UL 507 ninth edition standards and are the safest available in the industry today.

Our products are certified for commercial use and can be used outdoors safely.

Gibbons Fan Products, One Complete Solution:

Only Gibbons Fans can offer the inflatable manufacturer, inflatable hire companies and end users a complete range of electric fans, petrol/diesel fans and generators. No other manufacturer can offer our range of worldwide voltages and advanced technology.

FP 5006
110/120V/60Hz

FP 5006/110/120v/60Hz USA Specification Inflatable Blower

1 High quality flexible outlet spigot, designed to provide unrestricted airflow into the inflatable. Louvered air outlet ensures high efficiency and performance.

2 Unique interlocking stackable design, ensures secure stacking and reduces storage area required, a feature unique to Gibbons Fans.

3 Ergonomic handle, sculptured to ensure comfortable transportation of the blower.

4 High quality push button on/off switch, providing high performance using high load contactors.

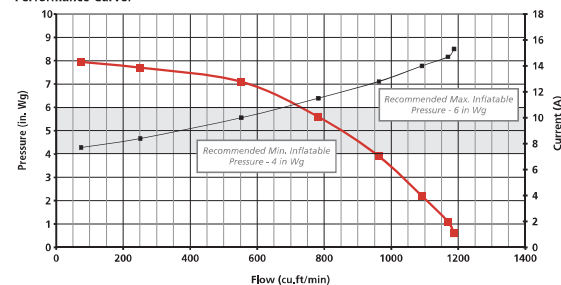

5 High Impact plastic casing, industry proven, long lasting and ergonomic design.

6 Bespoke cutting edge air over motor, Specifically designed by Gibbons Fans to disperse heat, increase performance and to minimise blower size.

Specification:

Material	Injection Moulded High Impact ABS
Normal Working Current	7-11 Amps
Type	Permanent Cap, 100µF
Rated Output	1100W
Electrical Supply	110v - 120v 60Hz
Dimensions	23.2" x 11.4" x 22.0"
Weight	34lbs
Speed	3260rpm
Certified for Commercial Use	Yes
Certified for Outdoor Use	Yes
Certification	UL 507 9th Edition, CSA C22.2 113-10

Performance Curve:

Why Choose Gibbons Fans?

- Internationally sourced premium quality components.**
 We source our components globally, as we believe that quality is more important than price. We know that reliability is of utmost importance to inflatable renting companies, manufacturers and end users alike.
- Efficient, high performance premium design.**
 Our efficient designs ensure we offer industry leading performance and pressure where you need it most.
- British design and engineering.**
 All our products are designed in the United Kingdom using advanced 3D modelling techniques. We have our own test lab to prove our designs before they enter the field.
- CSA certified to UL 507 Ninth Edition and/or CSA C22.2 113-10.**
 Safety is the number one priority of Gibbons Fans, we ensure that our blowers comply fully to both UL and/or CSA standards, for piece of mind and safety.
- International leader in inflatable blower design.**
 We have 25 years experience in blower design and are the trendsetter and market leader. We offer innovation and technology which sets us apart from the competition.
- Robust, strong and proven design.**
 Our exceptionally strong impact resistant casing, coupled with innovative design features results in our products being reliable, industry proven and offer a high return on investment (ROI).
- Easy to store and stack.**
 Our interlocking design means that our products are designed to stack on top of each other, optimising storage space.
- Industrial design.**
 At Gibbons Fans we design our blowers with commercial appeal. We are aware that the main interest should be the inflatable and not the blower. Unlike colourfully designed products Gibbons Fans blower's prevent children and insects from being attracted to the blower, increasing safety and long term performance.
- Commercially rated.**
 Our principle product has been rated by CSA as being suitable for commercial use, which means that Gibbons Fans have passed the most stringent UL and CSA criteria, promoting safety and longevity.
- Approved for outdoor use.**
 Gibbons 1.5hp blower has been approved for outdoor use as defined by CSA and UL. An industry first for an inflatable blower and an important safety aspect for any rental company, manufacturer or end user.
