Unclimbable Ladder

Additional Operating Instructions

Download all manuals here >>>

These are additional instructions to the Constant Flow Land Inflatable Operation Manual.

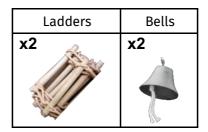

The unclimbable ladder can be a stand-alone inflatable or part of a larger obstacle or park. These additional operating instructions cover any device made by Airquee similar to the pictures above. If you are in any doubt about anything mentioned in this manual or its suitability for your product or circumstances, please contact us using any of the methods given on our website, www.airquee.com/contact.

For all guidance relating to the safe use and operation of an inflatable including safe positioning, anchoring, inflation/deflation, and regular checks please refer to our Constant Flow Land Inflatable Operation Manual. A copy of this can be downloaded by scanning the QR code on the filler pipe of your product or by visiting www.airquee.com/manuals.

As owner/operator it is your responsibility to write and carry out your own risk assessment before attempting to use this product. This manual, together with the Constant Flow Land Inflatable Operation Manual must be read before attempting to setup/use the product.

Additional Equipment

• The ladders are a consumable/replaceable item. They will wear and stretch over time and need to be replaced.

This inflatable can be set up and packed away by 2 persons who have had proper manual handling training and use the correct equipment to move the inflatable. You should conduct your own manual handling risk assessment to determine a safe set up procedure and number of people required based on your circumstances.

For information regarding dimensions, weight, zips, filler pipes etc please refer to the email we sent you with the finished pictures and data.

INTENDED USE OF THE PRODUCT

The Unclimbable ladder is designed to be a head-to-head competition between 2 players who need skill, and balance to make their way up the ladder. The first to ring the bell is the winner.

OPERATING GUIDELINES/RULES OF PLAY

- Users should NOT be ALLOWED TO CLIMB on the WALLS.
- Do not let more than one player on each ladder at a time.
- Never allow anyone on a ladder while there is anyone underneath the ladder (fallen off from the previous game).
- Participants should not engage in the game if they have any of the following conditions: current
 or previous injury to the back or neck, chronic knee, or other joint conditions; any respiratory
 conditions, including but not limited to asthma or bronchitis; any heart related or circulatory
 conditions or pregnancy.
- BEFORE, DURING AND AFTER USE, the ladders, bells, and their connection points should be checked for wear. If signs of wear are found, PLAY MUST BE STOPPED AND ANY WORN ITEMS MUST BE REPLACED IMMEDIATELY.

For more information regarding operating guidelines and rules of play please see the Constant Flow Land Inflatable - Operation Manual.

SETUP

If the ladders and bell at not attached, they should be attached while the inflatable is deflated. Ensure all knots are tight.

DIFICULTY LEVEL

You can use these 2 connection methods for different difficulty levels.

1) This is the hardest setting as the ladder can spin easier

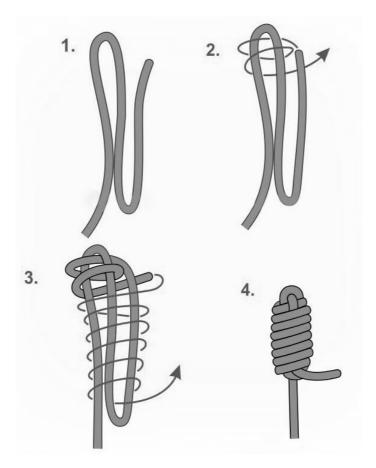

The ladder must be attached to the webbing loops with a heaving know as shown below.

<u>www.airquee.com</u> Page **3** of **5**

Over time the rope on the ladder may stretch. This can be retightened by adjusting the knots.

In addition to the checks that you must perform, all inflatables require an annual inspection. Please refer to local legislation for the specific requirements of the country or region that you are operating in.
